

BHUMI SARAOGI

saraogibhumi@gmail.com | (+91) 9531657378 | [LinkedIn](#) | [GitHub](#)

SKILLS

- ❖ Structured Problem Solving & Logical Reasoning
- ❖ Data-driven Decision Making
- ❖ Backend System Design & API Architecture
- ❖ Process Optimization & Validation
- ❖ Tools: Java, JavaScript, Node.js, Express, MongoDB, React, Git

EDUCATION

- ❖ B.Tech. CSE | NSHM Knowledge Campus, Durgapur | CGPA: 7.12 (Sep'23 - Jun'25)

PROJECT EXPERIENCE

- ❖ **MemoryFlix** | *Full Stack Video Diary Application* | [GitHub Repository](#)
 - Built a video-based personal diary platform with a Netflix-inspired UI for intuitive content discovery.
 - Developed RESTful APIs for secure video uploads, retrieval, and user-specific access control.
 - Implemented JWT-based authentication and protected routes to ensure user privacy.
 - Designed scalable MongoDB schemas to manage video metadata, categories, and user activity.
 - Took end-to-end ownership from system design to deployment.
- ❖ **Anonify** | *Full Stack Anonymous Social Platform* | [GitHub Repository](#)
 - Architected a production-ready backend focused on privacy, validation, and risk mitigation.
 - Implemented centralized error handling and validation middleware to reduce system failures and improve reliability.
 - Designed database schemas to support anonymous interactions while maintaining platform safety.
 - Took full ownership from design to deployment.
- ❖ **Tour-It** | *Full Stack Travel Planner Web App* | [GitHub Repository](#)
 - Implemented backend systems for listings, reviews, and secure image uploads.
 - Designed authorization flows to protect user-generated content and ensure platform trust.

LEADERSHIP & RESPONSIBILITY

- ❖ **Technical Coordinator** | College Coding Club
 - Managed and maintained the official coding club website.
 - Took ownership of feature updates, bug resolution, and performance improvements.
 - Collaborated with peers and juniors, improving adoption and usability.
